THE WATER ACT

(Cap. 372)

KIRINYAGA COUNTY WATER AND SANITATION PLC

APPROVED TARIFF STRUCTURE FOR THE PERIOD 2026/2027 TO 2028/2029

The Water Services Regulatory Board (WASREB), under the powers granted by section 72 (1) (b) and (2) of the Water Act, 2016, has approved the regular tariff adjustment for the area served by Kirinyaga County Water and Sanitation PLC (KICOWASCO).

Kirinyaga County Water and Sanitation PLC (KICOWASCO) applied to the Water Services Regulatory Board (WASREB) for a review of water services tariffs for the period 2026/2027 to 2028/2029, as per section 72(1) (b) of the Water Act, 2016.

Public consultation on the KICOWASCO application was carried out in accordance with the requirements of section 139 of the Water Act, 2016.

Having considered the application, the written and oral submissions by all stakeholders and the current data, WASREB has determined that an upward tariff review is justified for KICOWASCO to improve service delivery, operate sustainably and protect consumer interests by meeting the tariff conditions attached to the tariff.

WASREB hereby gives a one-month notice from the date of this communication to all existing and potential customers of KICOWASCO that the structure of approved tariffs for water services for the three financial years 2026/2027, 2027/2028 and 2028/2029 shall be as follows:

GAZETTE NOTICE NO. 14582

THE WATER ACT

(Cap. 372)

KIAMBU WATER AND SEWERAGE COMPANY LIMITED

APPROVED TARIFF STRUCTURE FOR THE PERIOD 2026/2027 TO 2028/2029

The Water Services Regulatory Board (WASREB), under the powers granted by section 72 (1) (b) and (2) of the Water Act, 2016, has approved the regular tariff adjustment for the area served by Kiambu Water and Sewerage Company Limited (KIAWASCO).

Kiambu Water and Sewerage Company Limited (KIAWASCO) applied to the Water Services Regulatory Board (WASREB) for a review of water services tariffs for the period 2026/2027 to 2028/2029, as per section 72(1) (b) of the Water Act, 2016.

Public consultation on the KIAWASCO application was carried out in accordance with the requirements of section 139 of the Water Act, 2016.

Having considered the application, the written and oral submissions by all stakeholders and the current data, WASREB has determined that an upward tariff review is justified for KIAWASCO to improve service delivery, operate sustainably and protect consumer interests by meeting the tariff conditions attached to the tariff.

WASREB hereby gives a one-month notice from the date of this communication to all existing and potential customers of KIAWASCO that the structure of approved tariffs for water services for the three financial years 2026/2027, 2027/2028 and 2028/2029 shall be as follows:

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA)
STUDY REPORT FOR THE PROPOSED MIXED USE
DEVELOPMENT ON PLOT L.R NO. 16670/2, ALONG CHADY
ROAD, SYOKIMAU, MAVOKO CONSTITUENCY, MACHAKOS
COUNTY.

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Coordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Vanilla Vista Gardens Limited, proposes to establish a mixed use development comprising 4 residential blocks with a total of 264No. residential units (114No. studios, 110No. one bedroom units and 40No. two-bedroom units), 8No. commercial shops, parking area, internal access roads, children playing areas, associated amenities and facilities on plot L.R No. 16670/2, along Chady Road, Syokimau, Mavoko Constituency, Machakos County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation Measures
Air quality	- Water exposed surfaces and access road. - Cover trucks transporting soil and dusty materials. - Enforce low vehicle speeds. - Provide dust screens. - Maintain machinery. - Prohibit unnecessary idling. - Provide appropriate PPE. - Comply with applicable air-quality requirements.
Noise and vibration	- Restrict noisy works to approved working hours. - Maintain equipments. - Use low-noise machinery where practicable. - Avoid unnecessary idling and horn use. - Provide advance notice of exceptionally noisy activities. - Monitor noise where necessary.
Soil erosion, compaction and sedimentation	- Minimize exposed surfaces. - Phase excavation. - Provide temporary drainage and sediment controls. - Stabilize disturbed areas. - Stockpile soil appropriately. - Reinstate and landscape completed areas.
Stormwater runoff and flash-flood risk	- Provide adequately sized internal drainage. - Install attenuation/storage measures where required. - Control discharge rates. - Protect outfalls against erosion.

<i>Possible Impact</i>	<i>Mitigation Measures</i>	<i>Possible Impact</i>	<i>Mitigation Measures</i>
Solid and construction waste generation	• Maintain drainage systems. • Ensure discharge does not adversely affect neighbouring properties or downstream drainage. • Apply waste minimization, reuse, and recycling. • Segregate waste at the source. • Provide covered storage. • Reuse suitable excavated materials. • Transport waste using licensed handlers. • Dispose of waste only at approved facilities. • Prohibit illegal dumping.	Impacts associated with construction workers and community interaction	• Prioritize local labour. • Provide worker induction and community awareness. • Prohibit child labour and exploitation. • Implement SEA/SH prevention measures and a confidential grievance mechanism. • Enforce worker accommodation and conduct requirements.
Wastewater generation and pollution	• Operate the approved onsite wastewater treatment system. Provide adequate treatment capacity. • Regularly inspect and maintain the system. • Prevent untreated discharge. • Undertake effluent monitoring as required. • Use licensed service providers for sludge management.	Impacts on neighbouring properties from construction activities	• Secure the site. • Use appropriate hoarding/screens. • Control dust, noise, vibration and runoff. • Avoid encroachment onto neighbouring property. • Maintain safe access and promptly address legitimate complaints through the grievance mechanism.
Water demand and pressure on water resources	• Install water-efficient fixtures. • Monitor consumption. • Repair leaks promptly. • Provide adequate storage and promote water conservation.	Loss of vegetation/landscape quality	• Minimize vegetation clearance. • Protect retained vegetation landscape disturbed areas with Suitable indigenous/adapted species. • Maintain landscaped areas throughout operation.
Traffic, access disruption and road safety	• Prepare and implement a traffic-management plan. • Schedule deliveries appropriately. • Provide safe site access; enforce low speeds. • Use trained drivers; avoid obstruction of public roads. • Provide warning signs and flag persons where necessary.	Oil, fuel and chemical spills	• Store fuels and chemicals in secure, labelled and banded areas. • Maintain spill kits. • Train workers in spill response. • Inspect equipment. • Promptly contain, recover and appropriately dispose of contaminated materials.
Construction accidents and occupational health and safety risks	• Prepare and implement a site-specific OSH plan. • Conduct risk assessments and toolbox talks. • Provide appropriate PPE. • Secure excavations and work-at-height areas. • Install warning signage and barriers. • Provide first aid, emergency procedures and workers training, procure WIBA Insurance.	Energy consumption and greenhouse-gas emissions	• Use energy-efficient lighting and appliances. • Maximize natural lighting and ventilation • Maintain equipment. • Consider solar energy and energy-efficient systems. • Monitor electricity consumption.
Fire and emergency risks	• Provide fire detection, alarms, extinguishers, hose reels/hydrants and emergency exits as applicable. • Maintain clear escape routes. • Prepare an emergency response plan. • Conduct fire drills and train occupants/workers.	The full report of the proposed project is available for inspection during working hours at: (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi. (b) County Director of Environment, Machakos County. A copy of the report can be downloaded at www.nema.go.ke The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of this publication to the Director-General, NEMA, to assist the Authority in the decision making process regarding this project. CO-ORDINATION ACT**

(Cap. 387)

**NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA)
STUDY REPORT FOR THE PROPOSED 60MW WIND ENERGY
FARM IN KAJIADO COUNTY.**

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Coordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, National Cement Company Limited, proposes to establish a 60MW wind energy farm comprising of 38No. wind turbine generators, 33/220 kV step-up substation, turbine platforms and foundations, internal access roads including upgrades of existing roads, underground and overhead electrical cabling, 220 kV transmission line and wayleave, construction support areas and temporary storage yards and other associated facilities and amenities in Kajiado County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impact</i>	<i>Proposed Mitigation Measures</i>
Land acquisition conflicts	- Ensure all affected landowners and land users are compensated fairly, adequately, and promptly in accordance with the Land Act and other applicable laws. - Maintain continuous stakeholder engagement throughout the project cycle and establish an accessible grievance redress mechanism to receive, address, and resolve complaints in a timely manner.
Loss of vegetation	- Minimize vegetation clearing to only the areas required for project activities. - Clearly demarcate and mark areas designated for clearing to avoid unnecessary disturbance. - Replant indigenous tree and shrub species after construction to restore vegetation cover and enhance biodiversity.
Noise pollution	- Restrict construction activities to daytime working hours to minimize disturbance to nearby communities. - Ensure all machinery and equipment are regularly serviced and maintained to reduce excessive noise emissions. - Provide workers with appropriate hearing protection equipment such as earmuffs.
Waste generation (solid and hazardous)	- Segregate waste at source into recyclable, reusable, and hazardous categories. - Dispose of all waste through licensed waste handlers and disposal facilities. - Promote recycling of usable materials and ensure hazardous components are dismantled, handled, stored, and disposed of safely to prevent environmental contamination.
Community dissatisfaction	Conduct regular public participation meetings and community awareness programmes to inform stakeholders about project activities, benefits, risks, and mitigation measures.

<i>Possible Impact</i>	<i>Proposed Mitigation Measures</i>
Disruption of land use	- Establish effective communication channels to address concerns raised by community members. - Ensure project activities comply with approved land use plans, zoning requirements, and relevant regulations. - Proper planning should be undertaken to minimize interference with existing land uses such as grazing, farming, and settlements.
Air pollution (dust emissions)	- Carry out regular water sprinkling on access roads, excavation sites, and other exposed surfaces to suppress dust. - Cover trucks transporting loose materials and enforce speed limits on project roads to reduce dust generation.
Occupational health and safety risks	- Provide workers with suitable personal protective equipment (PPE) and ensure it is used at all times. - Conduct regular safety training and awareness programmes. - Enforce safety procedures and maintain safe working practices at all project sites. - Provide continuous safety training, enforce use of PPE, and establish emergency preparedness and response procedures, including fire safety and first aid measures.
Traffic congestion and accidents	- Develop and implement a Traffic Management Plan to regulate movement of vehicles and equipment. - Install adequate warning signs and road safety signage. - Deploy trained traffic marshals to guide traffic and enhance safety around project areas.
Water pollution	- Store fuels, oils, and chemicals in designated areas with secondary containment measures. - Implement spill prevention and response procedures. - Provide adequate sanitation facilities for workers to prevent contamination of water resources.
Impacts on fauna (birds and wildlife) during installation	- Avoid project activities in sensitive habitats and wildlife corridors. - Schedule construction works to minimize disturbance during critical periods such as breeding seasons. - Conduct awareness training for workers on wildlife conservation and protection measures.
Bird and bat collisions during Operation phase	- Install bird diverters and other visibility enhancement devices where necessary. - Optimize turbine placement to avoid migration routes and sensitive habitats. - Conduct regular monitoring to assess impacts and implement corrective measures where required.
Noise from turbines	Conduct routine maintenance of turbines to ensure efficient operation and reduced noise generation.

<i>Possible Impact</i>	<i>Proposed Mitigation Measures</i>		
Visual impact and Scarring	- Maintain appropriate setback distances between turbines and residential areas to minimize noise impacts on communities. - Integrate project infrastructure into the surrounding landscape through appropriate design and landscaping. - Engage communities on visual concerns and restore disturbed areas to their original condition during decommissioning.	The proponent, Nanchong Longines Island Limited, construct an 19-storey residential block comprising of 2 basements for parking, ground floor for parking, lobby, reception, roof floor will comprise of restaurant, coffee shop, gym, swimming pool, laundry room, drying area and children play area while 1st to 19th floors will comprise of 152No. residential apartments (19No. studios, 95No. one bedroom, 19No. two bed room and 19No. three bedroom apartments) and other associated amenities and facilities on plot Title No. Nairobi/Block 4/416 along Westlands Avenue, Dagoretti North Sub-County, Nairobi City County. The following are the anticipated impacts and proposed mitigation measures:	
Oil leaks and contamination	- Undertake routine inspection and maintenance of equipment to identify and repair leaks promptly. - Maintain spill kits on site and train workers on spill response procedures.	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Community health and safety	- Conduct public awareness programmes on project-related risks and safety measures. - Restrict unauthorized access to turbines and other hazardous areas using fencing, signage, and security measures.	Soil erosion	- Control earthworks by water management, monitoring soil properties and equipment efficiency. - Provide soil erosion control and conservation structures (landscape modifications, trap sediments, stabilize slopes). - Landscaping shall be done on project completion.
Land degradation	Restore disturbed areas through backfilling excavated sites, landscaping, and re-vegetation using suitable plant species to prevent soil erosion and improve site stability.	Loss of vegetation	- Only area earmarked for development should be cleared. - Plant trees, shrubs and flowers on remaining open spaces.
Climate Change and Carbon Management	- Promote energy efficiency and use of renewable energy technologies. - Monitor greenhouse gas emissions and implement measures to reduce the project's carbon footprint in line with national climate change objectives.	Changes in hydrology/impended drainage/deep excavations	- A geotechnical survey has been conducted and the recommendations thereof to be followed. There shall be no blasting during excavation. - A methodology for excavation shall be generated as required by NCA. - Astute reference to the geotechnical survey report and Civil works designs - Install cascades to break the impact of water flowing in the drains. - Ensure efficiency of drainage structures through proper design and maintenance - Provide gratings to the drainage channels.
The full report of the proposed project is available for inspection during working hours at: (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi. (b) County Director of Environment, Kajiado County. A copy of the report can be downloaded at www.nema.go.ke The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of this publication to the Director-General, NEMA, to assist the Authority in the decision making process regarding this project. Comments can also be emailed to dgnema@nema.go.ke MAMO B. MAMO, Director-General, National Environment Management Authority.		Air pollution	- Stockpiles of earth should be sprayed with water or covered during dry seasons. - Provide dust masks for personnel in dusty areas. - Sensitize construction workers on pollution control measures - Cover all trucks hauling soil, sand and other loose materials.
		Noise pollution	- Install suitable barriers to shield compressors and other small stationary equipment where necessary - Display signs to indicate construction activities. - Maintain all equipment. - The working hours should be in line with NEMA licensing conditions. - Adhere to provisions of Noise Prevention and Control Rules 2005, Legal Notice No. 24 regarding noise limits at the workplace as well as NEMA Noise Excessive Vibration Pollution Control Regulations, 2009.

SUB-COUNTY, NAIROBI CITY COUNTY

INVITATION TO PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Public health, occupational health and safety	• Train staff/workers on occupational health and safety. • Provide full protective gear and workmen's compensation cover in addition to the right tools and operational instructions and manuals during construction. • Design of sewerage system should be as provided in the plans and should be constructed to approved size and design, standard and of approved materials. • Ensure use of standard construction materials and to the specifications. Avoid undesirable, substandard, hazardous or unauthorized materials during construction and maintenance. • Sensitized staff on social/health issues such as drugs.
Road traffic disruption	• No overloading of trucks and good driving practices to be practiced. • Suitable junction/access point to be provided. • Use of appropriate and legible signage. • Employment of formal flagmen/women to ensure the public safety. • Follow the recommendations of the traffic management plan.
Security and social impacts	• Provision of security guards, CCTV cameras, security lights and other security apparatus during the entire project cycle. • Construction work timings shall only in line with the NEMA licensing conditions.
Increased water usage	• Make use of roof catchments to provide water i.e. for general purpose. • An alternative water source shall be provided. • Management of water usage. Avoid unnecessary wastage. • Recycling of water at the construction phase where possible.
Increased generation of waste	• Adopt waste minimization at source. • Monitoring the fate of disposed wastes to ensure they are legally land filled at a recognized controlled site. • Adhering to waste management regulations of 2006.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA) STUDY REPORT FOR THE PROPOSED, RESIDENTIAL DEVELOPMENT ON PLOT L.R.NO.NAIROBI/BLOCK 106/1601 AND 106/1602 LOCATED IN MUGUMOINI AREA, LANGATA SUB-COUNTY, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Coordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent Karam Logistics Limited, proposes to construct a 12 storey residential block (1No basement, ground floor, 12No upper floors and a roof terrace floor) comprising a total of 144No units (48No two bedroom units and 96No three bedroom units) 83No parking bays, lift lobby, transformer room, switch room, associated facilities and amenities on plot L.r No Nairobi/Block 106/1601 and 106/10602 located in Mugumoini area, Lang'ata Sub- County, Nairobi County

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Soil Erosion	• Install drainage structures to control flow of storm water. • Ensure and management of excavation activities.
Loss of vegetation	• Only area earmarked for development should be cleared. • Plant trees, shrubs and flowers on remaining open spaces.
Changes in hydrology/impended drainage/deep excavations	• Proper installation of drainage structures. • Install cascades to break the impact of water flowing in the drains. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • A geotechnical survey shall be conducted and the recommendations there of followed. There shall be no blasting during excavation. • A methodology for excavation shall be generated as required by NCA.
Topography	• Proper landscaping should be done after the end of all the construction works. • Planting of trees and grass in areas where they had been cleared.
Ground water pollution	• Infrastructure Upgrades: Upgrading storm water drainage systems to align with modern, intensified urban runoff conditions. • Design should ensure surface flow is drained suitably into the public drain during construction. • Proper installation of drainage structures/facility. • Obtain approval for sewerage reticulation/connection to dispose waste water to the convectional sewer system.

<i>Impacts</i>	<i>Mitigation Measures</i>	<i>Impacts</i>	<i>Mitigation Measures</i>
Air pollution	- Regular sprinkling water on areas generating dust. - Workers should be provided with PPE's e.g. nose masks and goggles during construction. - Careful screening of construction site to contain and arrest construction related dust.		- Recycling of water at the construction phase where possible. - Make use of roof catchments to provide water i.e. for general purpose.
Noise pollution	- Machinery and equipment should be well maintained to reduce noise. - Construction works should be within the working hours from 8. 00a.m to 5.00pm. - Workers should be provided with PPE's e.g. earmuffs when operating noisy machinery. - Minimize vibrations by using hi-tech equipment that produces lesser vibrations during excavation.	Increased waste generation	- Demolition and construction waste be recycled or reused. - General waste must be removed from the site by a licensed waste handler. - Non usable solid waste materials generated during construction shall be transported to a NEMA designated dumping site. - Installation of waste bins on site to avoid scattering on the ground. - Adhering to waste management regulations of 2024.
Public Health, Occupational Health and Safety	- Provide safety gears to the workers e.g. overalls, helmets. - Construction work shall be limited to daytime only. - Workers to be adequately insured against accidents. - All workers will be sensitized before construction begins on how to control accidents related to construction. - Keep record of the public emergency service telephone numbers including: Police, Fire brigade, Ambulance at strategic points. - Provide first aid kits at strategic places in the site. - All workers to wear protective gear during construction e.g. helmets. - Provide clean water and food to the workers. - A comprehensive contingency plan shall be prepared before Construction begins on accident response.	The full report of the proposed project is available for inspection during working hours at: (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi. (b) County Director of Environment, Nairobi City County. Comments can also be emailed to dgnema@nema.go.ke MAMO B. MAMO, Director-General, National Environment Management Authority.	
Road Disruption	- Maintain clear walkways for moving workers and transporting materials and equipment. - Visible signage's during construction. - Employ traffic marshals to control traffic in and out of site. - Ferry building materials during off-peak hours. - Provide traffic signage at the site/entrance to notify motorists and general public about the development.	GAZETTE NOTICE NO. 14605 THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT (Cap. 387) NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA) STUDY REPORT FOR THE PROPOSED USED OIL RECYCLING FACILITY ON PLOT L.R. NO. KWALE/SAMBURU/SOUTH SAMBURU-GORA IN SAMBURU, KWALE CONTY INVITATION OF PUBLIC COMMENTS PURSUANT to section 59 of the Environmental Management and Coordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project. The proponent, NSM Enterprise Limited, proposes to construct and operate an approximately 20,000litre per batch used oil recycling facility comprising a total of a 10 No. storage tanks, 659.68 m² plant shed, recycling plant machineries, an office block, quality assurance department, truck parking area, loading & offloading bay and an 8 to 10 feet high boundary wall & main gate, associated facilities and amenities on plot L.R. No. Kwale/Samburu/South Samburu-Gora in Samburu, Kwale County. The following are the anticipated impacts and proposed mitigation measures:	
Insecurity	- Provision of security guards, CCTV cameras, security apparatus during entire project cycle. - Construction work timings shall only in line with the NEMA licensing conditions.	General solid wastes	- Engage a NEMA licensed waste handler. - Segregate waste in line with the Sustainable Waste Management Act, 2022 and the National Color-Coding System.
Increased usage	- An alternative water source shall be provided. The proponent shall drill a borehole at the proposed site. - Management of water usage. Avoid unnecessary wastage.		

<i>Impacts</i>	<i>Mitigation Measures</i>
Sanitary wastes	- The handling, storage, transportation and treatment of hazardous wastes shall be undertaken in line with waste management regulation of 2024. - Provide workers with adequate number of toilets lined with impermeable materials. - Engage NEMA licensed waste service providers for regular exhaustion.
Process wastes	- Process wastewater shall be directed through a closed drainage system to an oil-water separator for the removal of free oil and grease. - Implement an EPR take-back mechanism to facilitate the environmentally sound collection, transportation, recycling, and disposal of used oil containers. - Adopt cleaner production approaches and industry innovations e.g. source and process optimization, waste minimization & byproduct recovery, resource & energy efficiency and good housekeeping practices.
Management of air pollution (Stack emissions, fugitive emissions, odors)	- Installation of double-netted dust screens during construction. - Baseline ambient air quality was undertaken. - Bi-annual monitoring of the ambient air quality, stack and fugitive emissions.
VOCs, vapors, fumes from machinery or processing activities	- Installation of appropriate Air Pollution Control Systems (APCS). - Compliance with the conditions of the emissions license.
Management of spills, leaks and non-refinable used oil to prevent environmental pollution	- Baseline soil quality investigations were undertaken. - Undertake a Hazard and Operability (HAZOP) Study, formulation of Spill Prevention and an Emergency Response Plan to safeguard the recipient properties and communities. Installation of a multi-stage Oil-Water Interceptor (OWI) system and secondary stormwater containment.
Impacts on traffic and site accessibility	- Ensure all tankers comply with EPRA and traffic safety requirements. - The transporter shall have in place an Emergency Response Plan in case of truck rollover incidents, spillages, fires and explosions. - Ensure compliance with the Technical Guidelines on the Management of Used Oil and oil Sludge in Kenya, 2016.
Climate Change vulnerability and risk assessment of the project	- Implementation of climate change mitigation and adaptation measures. - Building Climate Resilience through green building technologies and administrative strategies.
Pressure on existing utilities	- Seek approvals from the Kwale Water and Sewerage Company Limited (KWAWASCO), KPLC, Kwale County Government. - Consider the need for backup measures to supplement the required utilities.
Occupational and Safety Health	Ensure adherence to OSHA, 2007 requirements standards with emphasis on workplace registration, sanitary convenience, occupational hygiene evaluation, SOPs implementation and risk assessment.

<i>Impacts</i>	<i>Mitigation Measures</i>
Social risks	- Compliance with KEBS and EPRA regulations and safety standards. - Establish and operationalize a Grievance Redress Mechanism (GRM), Corporate Social Responsibility (CSR) initiatives and a deliberate local content policy. - Ensure zero tolerance to Gender Based Violence (GBV) and Sexual Harassment (SH).

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA) STUDY REPORT FOR THE PROPOSED KABİYET-MOSOP SUGAR FACTORY PLOT L.R NO. NANDI/KIPKAREN SALIENT/917 IN CHEPKEMEL SUB-LOCATION, KIPKAREN LOCATION, KIPKAREN WARD, MOSOP SUB-COUNTY, NANDI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Coordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Kabiyet Sugar Factory Limited, proposes to establish a 1250 TCD Sugar factory, including a 3MW cogeneration power plant, weighbridge, offices, cane yard, mill house, Boiler, Spray Pond, sugar godown, control panel room, Effluent Treatment Plant, molasses storage tank, reservoir tank, bagasse yard, associated facilities and amenities on Plot L.r. No. Nandi/Kipkaren Salient/917 at Chepkemel village, Chepkemel Sublocation, Kipkaren location, Mosop Sub County, Nandi County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation measures</i>
Local increase of construction traffic	Construction vehicles to enter and leave the site through designated paths only; Posting traffic warning signs on both approaches to the construction site to warn other road users of traffic risks; Strict adherence to speed limits near the construction area of 10 km/hr; Clearly marking parking spaces, installation and maintenance of traffic guide signage. Stockpiling materials along the road shall be avoided.

Noise pollution and vibration	• Restriction of the work hours during the construction phase from 7 am to 6 pm Monday to Saturday; • All machinery used during construction shall be maintained in a sound mechanical condition with regular servicing; • Limit pick-up trucks and other small equipment to a minimum idling time and observe a common-sense approach to machine use, and encourage workers to shut them off whenever possible	Greenhouse gas emissions and climate change contribution	• Utilize bagasse as renewable fuel for the 3 MW cogeneration plant; improve energy efficiency; maintain equipment to reduce emissions; promote tree planting and cleaner production technologies.
Occupational health and safety	• Provision of appropriate Personal Protective Equipment, Safety education and training for workers, Barricading the construction area appropriately and posting public warnings; Provision of appropriate onsite sanitary convenience for workers; Establishing emergency procedures against hazards and Ensuring the workers stay aware/educated on following them and commensurate to the magnitude and type of emergency, by conducting regular drills and involving the neighboring people; Display signage warning of potential hazards at various sections of the plant	Incidents, accidents and dangerous occurrences.	• Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSO) are in place. • Reporting should also be as stated in Section 21 of the Occupational Safety and Health Act, 2007.
Impact on air quality (Dust emissions and deterioration of air quality)	• Watering all active construction areas as and when necessary to lay dust; Avoid excavation works in extremely dry weathers; A speed limit of 10km/hr shall apply to all construction vehicles to limit dust; Avoid overloading the bagasse for efficient burning; Planting appropriate trees, shrubs and flowers to compensate for emissions; Use acceptable emission control technologies. ESPs proposed for stack pollution control; Conduct routine air quality monitoring to comply with the set standards	Food insecurity	• The proponent will ensure that sugarcane farming does not replace food crops by promoting intercropping and mixed farming systems. This will be done in collaboration with relevant County Government departments.
Generation of solid waste (bagasse, boiler ash, press mud, scrap metal, packaging and domestic waste)	• Implement waste segregation at source; utilize bagasse as boiler fuel for cogeneration (3MW); compost press mud for agricultural use; recycle recoverable materials; dispose residual waste through NEMA-licensed waste handlers.	Increased energy demand	• Sensitization of staff to conserve non-renewable fossil energy by switching off machinery and equipment when they are not being used; Installation and use of energy efficient welding and lighting equipment during construction and operation respectively.
Effluent Management	• Install effluent treatment plant and monitor the efficiency of the ETP to ensure that wastewater released from the factory do not pollute the environment and affect the public; Conduct quarterly sampling and analysis and apply for Effluent Discharge License from NEMA; Ensure constant monitoring of the quality of the treated water to ensure it meets water quality standards of NEMA.	Traffic congestion, cane spillage and road safety risks	• Prepare and implement a Traffic Management Plan; enforce speed limits; erect road signage; schedule cane deliveries; sensitize drivers on safe driving and proper loading to prevent cane spillage. The proponent will also institute measures of collecting all the spilled cane on the feeder roads.
Increased water demand	• Immediately drill a borehole to supplement water sourced from River Cheberen; Sweep with a broom and pan where possible, rather than hose down external areas; Quick fixing of leaking pipes and toilet cistern; Reduce water delivery in taps, through the installation of low flow devices or aerators on taps.	Labor influx and social impacts (GBV, SEA/SH, HIV/AIDS, insecurity, substance abuse)	• Prioritize local employment; enforce a Workers' Code of Conduct; implement HIV/AIDS and GBV/SEA awareness programmes; strengthen site security; collaborate with local security agencies; prohibit child labour and discrimination.
Loss of Biodiversity	• Avoid unnecessary clearing of vegetation; protect riparian areas; establish landscaped green belts; undertake compensatory tree planting; restore disturbed habitats after construction.	Community health and safety risks	• Fence the factory; control site access; implement emergency response plans; collaborate with local administration and emergency services; establish an effective Grievance Redress Mechanism (GRM); conduct community awareness programmes.
Oil spills/ Discharge of waste oil	• Minimization of oil spillage, burning of waste oil in boilers, installation of waste oil separator; A designated garage section of the site fitted with oil trapping equipment to be planned for changes; Prompt cleaning of oil and fuel spills	VMGs involvement	• VMGs and less fortunate in the society should be considered in this project.
		Delayed farmer payments and stakeholder dissatisfaction	• Implement transparent cane procurement systems; comply with applicable sugar sector regulations on farmer payments; maintain effective communication and grievance handling mechanisms.
		Pressure on social amenities and public services	• Liaise with County Government to improve infrastructure; support health, education and water projects through Corporate Social Responsibility (CSR); prioritize local procurement and employment.

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT (ESIA)
STUDY REPORT FOR THE PROPOSED RESIDENTIAL CUM
COMMERCIAL DEVELOPMENT ON PLOT LR. NO.
NAIROBI/BLOCK 23/525 LOCATED ALONG DENNIS PRITT
ROAD, IN KILIMANI AREA OF NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Coordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Harrington Estates Limited, proposes to construct a 16 storey residential cum commercial block (basement, 2No. mezzanines floors ground plus 16 No. upper floors) comprising a total of 550No. residential units (492No. one-bedroom units, 58No. two-bedroom units) 21No. offices, 10No. shops, car parking spaces, gymnasium, restaurant, other associated facilities and amenities on plot Ir. No. Nairobi/Block 23/525 located along Dennis Pritt road, in Kilimani Area of Nairobi City County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Mitigation Measures</i>
Noise Pollution	- Construction works shall be carried out during the day. - The contractor shall use noise shields on noisy equipment such as corrugated iron sheet structures. - All noisy activities shall be scheduled concurrently during the construction to reduce the exposure period. - Operation of the noisy machinery shall be carried out when necessary and switched off when not in use. - Provide and enforce the use of Personal Protective Equipment (PPE) by the workers at all times during the construction phase. - Monitor noise levels as per NEMA & NCC guidelines.
Air Pollution	- Use of dust screens/nets around the construction site to contain and arrest dust. - Regular sprinkling of water on work areas to prevent fugitive dust violations. - Ensure no burning of waste such as paper and bottles on non-designated areas. - Regular covering and watering of all exposed stockpiles on site. - Regular and prompt maintenance of construction machinery and equipment to minimize generation of hazardous gases.

<i>Impact</i>	<i>Mitigation Measures</i>
Oil pollution	- Proper storage, handling, and disposal of new/used oil and related oil wastes. - Routine maintenance of the construction equipment to avoid oil leaks. - Maintenance of the construction equipment to be carried out in the contractor's yard (off the site).
Solid waste	- Engage the services of the NEMA waste contractor to handle the waste. - Covering of the trucks when transporting building materials and waste. - Segregation of the waste at source before disposal to designated areas. - Use of an integrated solid waste management system through a hierarchy of options: source reduction, recycling, composting and reuse. - Efficient use of the materials to reduce waste and recycling/reuse where feasible. - Monitor waste as per the waste management regulations.
Liquid waste	- Channel all liquid waste to the NCWSC were line serving the area - Conduct routine inspection and monitoring of the internal drainage system to identify and repair any leakages and blockages. - Provision of adequate sanitary facilities to the workers during the construction. Regular inspection and maintenance of the internal sewer system.
Water demand	- Connect to the existing water supply after the acquisition of the relevant permits. - Drill a borehole to supplement the existing water supply. - Use of water efficient fittings/fixtures for plumbing products and white goods. - Provision of adequate water tanks for water storage. - Prompt detect and repair of the water fixtures and fittings.
Energy Demand	- Use of solar energy as an alternative source of energy. - Install and routine maintenance of energy efficient fixtures and fittings. - Turn off the machinery and equipment when not in use. - Put off all the lights immediately when not in use.
Increased Traffic	- Ferry building materials during off-peak hours. - Employ traffic marshals to control traffic in and out of site. - Provide billboards at the site/entrance to notify motorists and the general public about the proposed project. - Enforce speed limits for construction vehicles especially along the adjacent roads. - Develop a traffic management plan to ensure that the site vehicles do not interfere with the regular traffic along the access roads.

<i>Impact</i>	<i>Mitigation Measures</i>
Insecurity	- Engage services of security guards. - Install and regular maintenance of the CCTV cameras. - Place hotline numbers on strategic places. - Sensitize residents on security precautions - Sensitize the residents on “<i>Nyumba Kumi Initiative</i>”.
Storm water drainage	- Proper design and maintenance of the drainage structures. - Construct internal drains within the property for storm water management. - Proper installation of cascades to break the impact of water flowing in the drains. - Rainwater harvesting to reduce surface runoff. - The proponent will ensure drainage facilities are fitted with adequate functional oil-water separators and silt traps.
Health and safety of workers	- Register the construction site as a workplace with DOSHS. - Provide PPE to the workers and ensure that they wear them at all times. - Provide first aid kit for the workers on the site. - All workers to be adequately insured against accidents. - All workers shall be sensitized before construction begins on how to control accidents related to construction. - Keep a record of the public emergency service telephone numbers including Police, Fire brigade, and Ambulance at strategic points. - Ensure that the workers are registered with SHIF / NSSF and remit appropriate fees. - Prepare a comprehensive contingency plan before construction begins on accident response.

ENVIRONMENTAL AND SOCIAL IMPACT ASSESSMENT
(ESIA) STUDY REPORT FOR THE PROPOSED 60MW WIND
ENERGY FARM IN KAJIADO COUNTY.

INVITATION TO PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, National Cement Company Limited, proposes to establish a 60MW wind energy farm comprising of 38No. wind turbine generators, 33/220 kV step-up substation, turbine platforms and foundations, internal access roads including upgrades of existing roads, underground and overhead electrical cabling, 220 kV transmission line and wayleave, construction support areas and temporary storage yards and other associated facilities and amenities in Kajiado County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Mitigation Measures</i>
Land acquisition conflicts	- Ensure all affected landowners and land users are compensated fairly, adequately, and promptly in accordance with the Land Act and other applicable laws. - Maintain continuous stakeholder engagement throughout the project cycle and establish an accessible grievance redress mechanism to receive, address, and resolve complaints in a timely manner.
Loss of vegetation	- Minimize vegetation clearing to only the areas required for project activities. - Clearly demarcate and mark areas designated for clearing to avoid unnecessary disturbance. - Replant indigenous tree and shrub species after construction to restore vegetation cover and enhance biodiversity.
Noise pollution	- Restrict construction activities to daytime working hours to minimize disturbance to nearby communities. - Ensure all machinery and equipment are regularly serviced and maintained to reduce excessive noise emissions. - Provide workers with appropriate hearing protection equipment such as earmuffs
Waste generation (solid & hazardous)	- Segregate waste at source into recyclable, reusable, and hazardous categories. - Dispose of all waste through licensed waste handlers and disposal facilities. - Promote recycling of usable materials and ensure hazardous components are dismantled, handled, stored, and disposed of safely to prevent environmental contamination.
Community dissatisfaction	Conduct regular public participation meetings and community awareness programmes to inform stakeholders about project activities, benefits, risks, and mitigation measures.

<i>Impact</i>	<i>Mitigation Measures</i>	<i>Impact</i>	<i>Mitigation Measures</i>
	Establish effective communication channels to address concerns raised by community members.	Visual impact and scarring	Integrate project infrastructure into the surrounding landscape through appropriate design and landscaping.
Disruption of land use	- Ensure project activities comply with approved land use plans, zoning requirements, and relevant regulations. - Proper planning should be undertaken to minimize interference with existing land uses such as grazing, farming, and settlements.		Engage communities on visual concerns and restore disturbed areas to their original condition during decommissioning.
Air pollution (dust emissions)	- Carry out regular water sprinkling on access roads, excavation sites, and other exposed surfaces to suppress dust. - Cover trucks transporting loose materials and enforce speed limits on project roads to reduce dust generation.	Oil leaks and contamination	- Undertake routine inspection and maintenance of equipment to identify and repair leaks promptly. - Maintain spill kits on site and train workers on spill response procedures.
Occupational health and safety risks	- Provide workers with suitable personal protective equipment (PPE) and ensure it is used at all times. - Conduct regular safety training and awareness programmes. - Enforce safety procedures and maintain safe working practices at all project sites. - Provide continuous safety training, enforce use of PPE, and establish emergency preparedness and response procedures, including fire safety and first aid measures.	Community health and safety	- Conduct public awareness programmes on project-related risks and safety measures. - Restrict unauthorized access to turbines and other hazardous areas using fencing, signage, and security measures.
Traffic congestion and accidents	- Develop and implement a Traffic Management Plan to regulate movement of vehicles and equipment. - Install adequate warning signs and road safety signage. - Deploy trained traffic marshals to guide traffic and enhance safety around project areas.	Land degradation	Restore disturbed areas through backfilling excavated sites, landscaping, and re-vegetation using suitable plant species to prevent soil erosion and improve site stability.
Water pollution	- Store fuels, oils, and chemicals in designated areas with secondary containment measures. - Implement spill prevention and response procedures. - Provide adequate sanitation facilities for workers to prevent contamination of water resources.	Climate change and carbon management	- Promote energy efficiency and use of renewable energy technologies. - Monitor greenhouse gas emissions and implement measures to reduce the project's carbon footprint in line with national climate change objectives.
Impacts on fauna (birds and wildlife) during installation	- Avoid project activities in sensitive habitats and wildlife corridors. - Schedule construction works to minimize disturbance during critical periods such as breeding seasons. - Conduct awareness training for workers on wildlife conservation and protection measures.	The full report of the proposed project is available for inspection during working hours at: (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi. The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Mitigation Measures</i>
Dust emissions during site preparation and construction	• Sprinkle water on exposed surfaces and access roads. • Cover transported materials. • Enforce speed limits for vehicles.
Noise and vibration from construction activities	• Restrict construction activities to daytime hours, • Maintain machinery regularly. • Provide workers with appropriate PPE.
Generation of construction waste	• Segregate waste at source. • Reuse recyclable materials where possible. • Dispose of wastes through licensed waste handlers.
Soil erosion and surface runoff	• Provide proper drainage channels. • Minimize exposed surfaces. • Undertake landscaping after construction.
Occupational health and safety risks	• Provide PPE to workers. • Ensure safety training. • Install warning signs. • Maintain first aid kits on site.
Increased water and energy demand	• Promote efficient use of water and energy. • Install water saving fixtures. • Encourage conservation practices.
Generation of domestic wastewater	• Connect to the sewer system where applicable. • Provide a properly designed septic tank and soak pit system.
Solid waste generation during operation	• Provide waste collection bins. • Segregate wastes. • Engage licensed waste collectors for proper disposal.
Increased traffic and accidents	• Provide adequate parking. • Maintain access roads. • Install appropriate signage to regulate traffic movement. • Employ traffic marshals where possible
Fire hazards public health and sanitation concerns	• Install firefighting equipment. • Provide emergency exits. • Conduct regular fire drills. • Train occupants on fire safety procedures. • Maintain proper sanitation facilities. • Ensure regular cleaning, and promote good hygiene practices.

INVITATION TO PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Arbor Edge Ventures Company Limited, proposes to construct a 23 storey residential block comprising of 5 basements for parking, ground floor for 3no. shops, meeting area, gym and yoga, kids play area, swimming pool, laundry, reading area, and convenience store, while 1st to 23rd floors will comprise of 616No. Residential apartments (115No. studios, 357No. one bed room units, 75No. two bed room units and 69No. three bedroom units), other associated amenities and facilities on Plot Title No. Nairobi/Block 26/40 along Githunguri Road, Kileleshwa, Nairobi City County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Soil erosion	• Control earthworks by water management, monitoring soil properties and equipment efficiency.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	• Provide soil erosion control and conservation structures (landscape modifications, trap sediments, stabilize slopes). • Landscaping shall be done on project completion.
Loss of vegetation	• Only area earmarked for development should be cleared. • Plant trees, shrubs and flowers on remaining open spaces.
Changes in hydrology/impended drainage/deep excavations	• A geotechnical survey has been conducted and the recommendations thereof to be followed. There shall be no blasting during excavation. • A methodology for excavation shall be generated as required by NCA. • Astute reference to the geotechnical survey report and Civil works designs. • Install cascades to break the impact of water flowing in the drains. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels.
Air pollution	• Stockpiles of earth should be sprayed with water or covered during dry seasons. • Provide dust masks for personnel in dusty areas. • Sensitize construction workers on pollution control measures. • Cover all trucks hauling soil, sand and other loose materials.
Noise pollution	• Install suitable barriers to shield compressors and other small stationary equipment where necessary. • Display signs to indicate construction activities. • Maintain all equipment. • The working hours should be in line with NEMA licensing conditions. • Adhere to provisions of Noise Prevention and Control Rules 2005, Legal Notice No. 24 regarding noise limits at the workplace as well as NEMA Noise Excessive Vibration Pollution Control Regulations, 2009.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

The following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be Clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE HUMAN RESOURCE POLICIES AND PROCEDURES MANUAL FOR THE PUBLIC SERVICE —

Kenya Gazette

A.30 (1) All communication for publication in the *Kenya Gazette* should reach the Government Printer not later than Friday of the week before publication is desired.

(2) A State Department will be required to meet the cost of advertising in the *Kenya Gazette*.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
